DIRECTOR'S DESK

"It is a great pleasure and honour for me to serve as the Director of Techno International New Town. The College was established in 2005 under the renowned Techno India Group to provide a significant niche in the education and research of science and technology.

TINT is taking bold strides towards making contribution to the advancement of technology and preparing the next generation of technocrats who will integrate innovation and lead the way towards sustainable growth of technological resources. The Institute is committed to create an ambience for nurturing innovation, creativity and excellence within its students.

We emphasise on developing leadership skills and grooming the overall personality of our students. The fine balance between academics and co-curricular activities at TINT enables the students to enjoy the college life to the fullest. We are confident that all our efforts will grow into significant levels of achievements in the larger world of academics and industry. Hopefully, our labours in all the major areas of science and technology will produce fruitful results in academic innovation, journal publications, research in the areas of technology and science.

We have almost come out of the extreme crisis posed by the pandemic COVID – 19, though we are continuing with all the COVID protocols. It gives me a great pleasure to state that the virtual teaching-learning process at our institute, during the pandemic has been conducted very efficiently and the students have been benefitted to a great extent, in the face of this adversity. The face to face interaction has commenced regarding all academic as well as co-curricular activities and by God's grace everything has returned to normalcy. The institute is steadily surging ahead to emerge as a centre of excellence and I wish it all the success."

- Dr. Radha Tamal Goswami
