

It is a well-known fact that an infant's brain matures with more than 80% of the synaptic connections by the age of 3 years and the rest 20% between 8-16 years. A stimulating environment with adults providing the right inputs can foster the brain development to form more synaptic connections. Hence the potential of the little ones' brain need to be fostered with appropriate environment and activities.

Our recently launched state – of – the – art and exclusive pre-school brand Techno Junior strives to offer such environment and foundation for a child to learn, to seek, to find, with pre-school education of International standard. We are committed to offer all that is necessary for an exciting start for the child's first learning experience. Our aim is to bestow each child with a joyous experience for a proper transition.

**Techno Junior – the Complete Pre-school for Generation Y**, is India's pioneer to introduce "Education 4.0". Years of extensive research and experience in education has inspired the origin of Techno Junior with a conceptual accent on inclusive growth of a child in an ambience of freedom beyond classroom

Overall, at Techno Junior we will focus on a 360 degree pre-school learning and developmental experience for children.

Techno Junior – the Complete Pre-school for Generation Y, is India's pioneer to introduce "Education 4.0".

At Techno Junior, we understand the need of 21st Century Skills required for complex problem solving and hence our Pre-school learning model is competency based, flexible, collaborative, technology enabled and environment blended which opens up the mind and encourages Critical Thinking and Creativity.

Each activity in our early learning program is framed as per the above objectives, thus striking a balance in developing the necessary skills in a pre-school child.

**A Techno Junior pre-school** ensures safety and cleanliness of its premises, toys and equipment and provides a hygienic and secure environment. A small class allows more interaction between the teacher and the children. Apart from class activities the pre-school also believes in allowing nature to be a child's teacher. A place where a child learns to plant the seeds of knowledge and watches the birds fly high in the sky.

We know, children come from different backgrounds and with different abilities of learning. We at Techno Junior pay one to one attention and individual care considering their respective learning abilities.

We offer three early learning levels at Techno Junior,

## LEVELS

**PLAY GROUP**  
(2yrs to 3yrs)

**NURSERY**  
(3yrs to 4yrs)

**KINDERGARTEN**  
(4yrs to 5yrs)
